

School Self Evaluation 2018-2020

As per circular 16/2018 our school has been re-engaging with the School Self Evaluation (SSE) process since May 2018.

Our current area of focus is developing the strand of Oral Language across the school. As part of this focus, we will create a structured whole school Oral Language plan where the children in both classes will be explicitly taught 8 Oral Text Types (such as storytelling & discussion, oral reports, debates, following and giving instructions etc.) over the course of a two year period.
